

Point of Sale ArPoint

The Point of Sale screen is ideal for Dump Truck System users that may also have a materials yard. This screen creates miscellaneous invoices for deliveries or sales by customer pickup.

The screenshot shows the 'Point of Sale (ARPoint)' window. It features a header with the title and window controls. Below the header, there are input fields for 'Date' (06/20/12), 'Ticket', 'Phone', 'Customer Name', 'Address', 'City', 'State', 'Zip Code', 'Email', and 'Resale Permit'. A table with columns 'Item', 'Quantity', 'Rate', 'Amount', 'Tax?', and 'Tax' is present, with the first row highlighted in yellow. Below the table is a 'Delivery Instructions' text area. To the right of the table, there are fields for 'Subtotal', 'Tax', and 'Please Pay This Amount', along with a 'Total' button. Below these are radio buttons for 'Paid By' (Cash, Check, Credit) and a 'Check or CC Auth:' field. At the bottom, there are buttons for 'Back', '?', 'Reports...', 'More...', and 'Finalize'.
